## (Engineering Science Institute for Training (ESI

### About the Institute

Engineering Science Institute for Training (ESI) is one of the leading and unique institutes providing specialized engineering knowledge across all disciplines. Established in 2013, the institute offers engineering diploma programs and professional development courses.

ESI operates under the supervision of the Technical and Vocational Training Corporation (TVTC) in cooperation with the Saudi Council of Engineers (SCE), along with strategic partnerships with major international organizations to enhance the skills of the engineering sector.

The institute's distinguished reputation in delivering high-quality training programs and workshops has made it a competitive provider supporting the goals of Saudi Vision 2030.

### Institute Strategy

ESI's strategy is based on core pillars that ensure an integrated educational experience aligned with modern professional requirements and national competency development.

### Mission

Excellence in qualifying engineering cadres through high-quality professional training and a practice-oriented environment.

### Vision

To be a leader in engineering training locally, regionally, and globally, preparing future leaders in technical fields.

### Our Values

- Integrity •
- Honesty •
- Transparency •
- Quality •
- Professionalism •
- Ethics •

## Accreditations & Partnerships

### :Local Accreditations

- TVTC: Official accreditation for diplomas and training programs
- SCE: Saudi Council of Engineers - Cooperation in engineering development
- Ministry of HR: Classification of diplomas for employment purposes
